

# STEPS TO CREATE A NEW HOPE ADAPTATION

2 Tap into your network to form a project partnership. Identify which churches or ministries will play key roles.

1 Contact Mars Hill with your interest in a translation of The HOPE. A Partnering Director will assist you with early questions and help set up the new project.

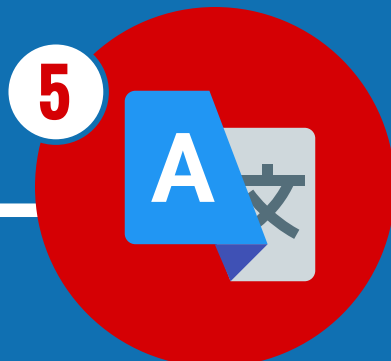

3 Create a personalized Adaptation Plan with Mars Hill for the proposed project. Will your version have on-screen or audio only storytellers? Will you add personalized footage?

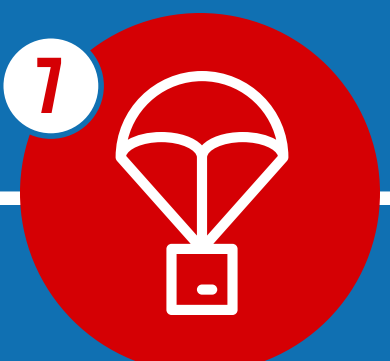

4 Develop and implement your project schedule and budget.

6 Perform Production and Post-Production with your Mars Hill approved Production Partner.

5 Complete Translation and Back-Translation according to the Adaptation Plan.

7 Duplicate and Deliver The HOPE to your people in the most appropriate method.
